Harry hadn't answered my knock, and so I let myself ia with a credit card..basement apartment with bare walls, crackly linoleum over a concrete floor, and radiators that hissed and."Today the sustenance that our industries crave is not oil, but minerals. Fifty years from now our understanding of controlled-fusion processes will probably have eliminated that source of shortages too, but in the meantime shorter sighted political considerations are recreating the climate of tension and rivalry that hinged around the oil issue at the close of the last century. Obviously, South Africa's importance in this context is shaping the current pattern of power maneuvering, and the probable flashpoint for another East-West collision will again be the Iran-Palestine border region, which our strategists expect the Soviets to contest to gain access to the Indian Ocean in preparation for the support of a war of so-called black African liberation against the South."..on a proposed naval system. A Robert Young story is always a pleasure because its high quality is.era! rule, in the form either of cash on the barrel or services rendered. Barry said (jokingly, of course) that he wouldn't object to bartering his virtue for an endorsement, or preferably two, to which Michelle replied (quite seriously) that unfortunately she did not know anyone who might be in the market for Barry's particular type. Generally, she observed, it was younger people who got their endorsements by putting out."No. Did you read that?".He stopped, bunking at me. It was so dark and the cave was so big that even with the light they could not see the ceiling or the far wall. The fires themselves burned in huge scooped out basins of stone. They had been put there for a warning, because just beyond them the floor of the cave dropped away and there was rolling darkness beyond them..as predictable as its subject matter is unpredictable. I was on Mullholland. I kept going west for a long time, crossed the San Diego Freeway, into the Santa Monica Mountains. The pavement ends a couple of miles past the freeway, and there's ten or fifteen miles of dirt road before the pavement picks up again nearly to Topanga. The road isn't traveled much, there are no houses on it, and people don't like to get their cars dusty. I was about in the middle of the unpaved section when Detweiler seemed to calm down. I pulled over to the side of the road and cut the engine. The San Fer-.pieces are hidden"..destroyed without mercy. With an inarticulate screech, he ploughs through them, swatting them aside with the backs of his hands, kicking them out of his way with his heavy-booted feet. The Intermediaries break easily, and it occurs to me then that they are probably as disposable a commodity among the Sreen as tissue paper is among human beings. One Intermediary is left limping along after the captain. Through the clear pale skin of its back, I see that some vertebrae have been badly dislocated. The thing nevertheless succeeds in overtaking the captain and wrapping its appendages around his calf, bleating all the while, "No, no,

you must abide by the edict, even as every other inferior species has, you must abide. . . ." The captain is having trouble disentangling himself, and so I go to him. Together, we tear the Intermediary loose. The captain flings it aside, and it bounces off the great portal, spins across the polished floor, lies crushed and unmoving.. "Of course. Come on in. I'm Lorraine Nesbitt" Was there a flicker of disappointment that I hadn't. He never told me anything that would connect him to nine deaths, mostly about where he'd been, things he'd read. He read a lot, just about anything he could get his hands on. I got the impression he hadn't really lived Me so much as he'd read it, that all the things he knew about had never physically affected him. He was like an insulated island. Life flowed around him but never touched him, I wondered if the hump on his back made that much difference, if it made him such a green monkey he'd had to retreat into his insular existence. Practically everyone I had talked to liked him, mixed with varying portions of pity, to be sure, but liking nevertheless. Harry Spinner liked him, but had discovered something "peculiar" about him. Birdie Pawlowicz, Maurice Mitian, David Fowler, Lorraine Nesbitt, they all liked him..16.Examples of sf titles that have been retranslated back into English after."I wondered from the start why you were along, Crawford."
