Ivory flourished his staff a little in greeting him. The sorcerer looked him up and down and said, "One man works weather on this ship. If it's not me, I'm off." He raised his hand closed in a fist and then turning and opening it, offered it to them palm up. Medra took her hand and put his forehead against it. Telling his story he had kept back tears. He never saw a person who was not. . . "who sometimes came among people in human form, and who made the rich Isle of Pendor into a dragon. The first thing she thought was a king, a lord, Maharion of the songs, tall, straight, beautiful. When Azver rejoined the other men there was something in his face that made the Herbal say, "What is it?". his power was gone, he was not a mage. So presently the Masters of Roke met to choose a new. It was as strangely quiet as the farmlands. Not a voice, not a face. It was difficult to feel. The boy shook his head at each question. He shut his eyes; his mouth was already shut. "He wanted me to go to the College on Roke to study with the Master Summoner. He was going to send. They said little, seeming to consult and assent among themselves almost in silence. At last the. They're coming," the Doorkeeper said. Men were coming through the gardens and up the path from the Great House, all the mages, many of the students. Leading them was Thorion the Summoner, tall in his grey cloak, carrying his tall staff of bone-white wood, about which a faint gleam of werelight hovered. He did not ask if Otter was picking up any sign of the ore; he did not ask whether he was seeking the ore or pretending to seek it. Otter himself could not have answered the question. In these aimless wanderings the knowledge of the underground would enter him as it used to do, and he would try to close himself off to it. "I will not work in the service of evil!" he told himself. Then the summer air and light would soften him, and his tough, bare soles would feel the dry grass under them, and he would know that under the roots of the grass a stream crept through dark earth, seeping over a wide ledge of rock layered with sheets of mica, and under that ledge was a cavern, and in its walls were thin, crimson, crumbling beds of cinnabar... He made no sign. He thought that maybe the map of the earth

underfoot that was forming in his mind could be put to some good use, if he could find how to do it.. "Oh, you are a pretty man," said the woman who had spoken first, laughing, as he held the red. "Come back," the Windkey said to the men. The idea of a school for wizards made him laugh. A school for wild boars, he thought, a college for dragons! But that there was some kind of scheming and gathering together of men of power on Roke seemed probable, and the idea of any league or alliance of wizards appalled him more the more he thought of it. It was unnatural, and could exist only under great force, the pressure of a dominant will-the will of a mage strong enough to hold even strong wizards in his service. There was the enemy he wanted!..liquid. She leaned still closer. I could smell her breath. If she was drunk, it was not on alcohol.. "The carters go down to Endlane, summers." He had lost something and had to find it. He did not know what he had lost, but it was in the fiery tower, the place where stone stairs went up among smoke and fumes. He had to go there. He got to his feet and shuffled, lame and unsteady, back down the valley.. "I may be able to help the beasts."
