

TIKUM CROSSING BRIDGE OF THE PEOPLE PORTLANDS BRIDGES AND A NEW ICON

More likely than not, he would cross Bartholomew's path when he least expected, not as a consequence of his searching, but in the normal course of a day. If that happened, he must be prepared to eliminate the threat immediately, by any means available to him. "You may be eating yourself into an early grave, Vinnie, but poor Jacob has murdered his own soul, and that's infinitely worse." In addition to mulling over strategy, Tom had spent a lot of time lately brooding about culpability: his own, not Cain's. By seizing on the name that he heard Cain speak in a dream, by making use of it in this psychological warfare, had he been the architect of the killer's Bartholomew obsession, or if not the architect, then at least an assisting. "Thursday it is," he said, clearly delighted to be receiving only a third of the fair-market rental from his apartment. Cold, wind-driven rain slashed through the missing windows, and voices rose in the street as people ran toward the Pontiac-thunder in the distance-and on the air was the ozone scent of the storm and the more subtle and more terrible odor of blood, but none of these hard details could make the moment seem real to Agnes, who, in her deepest nightmares, had never felt more like a dreamer than she felt now. After tucking the flashlight under his belt, he grabbed the lip of the Dumpster with both hands. The metal was gritty, cold, and wet. The universe was vast and Barty small, yet the boy's immortal soul made him as important as galaxies, as important as anything in Creation. This Agnes believed. She couldn't tolerate life without the conviction that it had meaning and design, though sometimes she felt that she was a sparrow whose fall had gone unnoticed. Barty sat on the edge of the doctor's desk, legs dangling, holding Red Planet, his place marked by an inserted finger. According to the brief biographic note with the picture, Celestina White was a graduate of San Francisco's Academy of Art College. She had been born and raised in Spruce Hills, Oregon, the daughter of a minister. He wanted an explanation, but no one could give him the one that he needed, because nobody but he himself knew the significance and symbolism of the quarter. This saving spirit retreated, and in his place came a young paramedic in a black-and-yellow rain slicker over hospital whites. "Just want to be sure there's no spinal injury before we move you. Can you squeeze my hands?" Only one member of the distant funeral party did not disperse toward the line of cars on the service road. A man in a dark suit headed downhill, between the headstones and the monuments, directly toward Naomi's grave. Concerned that Junior's crying jag would trigger spasms of the abdominal muscles and ultimately another attack of hemorrhagic vomiting, the nurse had with her a tranquilizer. She wanted him to use the apple juice to wash down the pill. She didn't hear gunfire this time, either, but the hard crack of splintering wood attested to the passage of at least two more bullets. pride, his one great shining moment but also his sinful pride. Clubbed with the trophy first, fists later. And now, here. Everyone from the pie caravan had gathered under the oak. The entire family, in its many names, adults and children, heads tipped back hands shielding their eyes from the late sun, watched Barty's progress in all but complete silence. The revolving beacons dwindled, casting off blue-and-red pulses of light that shimmered-swooped through the diffusing fog, as if they were disembodied spirits seeking someone to possess. Perplexed by their peculiar behavior, even slightly unnerved, Tom answered Maria's question. "I'm afraid there's nothing else I can do, nothing more of a fantastic nature." Trying to ignore his phantom toe, which itched furiously, he searched the apartment. He proceeded carefully, determined not to shoot himself in the foot accidentally this time. Sitting on a stool at the counter, he ordered a cheeseburger, coleslaw, french fries, and a cherry Coke. They could not have been more solemn or more respectful if Naomi's corpse--stitched back together, pumped full of embalming fluid, painted with pancake makeup, dressed in white, with her cold hands clasping a Bible to her breast--had been reposing in a casket in this very room, surrounded by flowers and awaiting the arrival of mourners. They were all polite, soft-spoken, sad-eyed, oozing unctuous concern--and so full of feverish calculation that Junior wouldn't have been surprised if they had set off the ceiling-mounted fire sprinklers. Wally's own house was in the same neighborhood, a block and a half away, a three-story Victorian gem that he entirely occupied. Twice during dinner, he seemed to draw near The Subject, but then he circled around it and flew off, each time to report some news of little relevance or to recount something funny that Angel had said. Junior was accustomed to having women seduce him. His good looks were a blessing of nature. His commitment to improving his mind made him interesting. Most important, from the books of Caesar Zedd, he had learned how to be irresistibly charming. Although he harbored no fear of coming under suspicion for the murder of Victoria Bressler, he intended to leave Spruce Hills this very night. No future existed for him in such a sleepy backwater. A wider world awaited, and he had earned the right to enjoy all that it could offer him. Neddy cooperated by not deigning to look back. Eventually, he stopped a young man who, judging by the name tag on the lapel of his blazer, was a gallery employee. They put their heads together in conversation, and then the musician headed through an archway into the second showroom. With his refreshed drink, studying Celestina's photograph in the brochure, Junior returned to the living room. She was as stunning as her sister, but unlike her poor sister, she wasn't dead and was, therefore, an appealing prospect for romance. From her, he must learn whatever she knew that might help him in the Bartholomew hunt, without alerting her to his motive. At the same time, there was no reason that they couldn't have a fling, a love affair, even a serious future together. In either case, printing the name in blood was a ritualistic act, and ritualism of this nature was an unmistakable symptom of a seriously unbalanced mind. Evidently, the wife killer would be easier to crack than expected, because his shell was already badly fractured. Stopping at the door without opening it, Vanadium turned to stare at Junior, but said nothing. "He's not a real contemporary person, not anyone Cain needs to fear. So how did he develop this obsession with finding someone named Bartholomew?" He met Celestina's eyes, as if she might have answers for him. "Is there a real Bartholomew? And how does this tie in with his assault on you? Or is there any tie-in at all?" and half rotten. She tore it. With the small scissors, she opened the shoulder

seam from the inside..He briefly closed his hand around the three coins, then with a snap of his wrist, flung them at Nolly, who flinched. But either the coins were never flung or they vanished in midair-and his hand was empty..She didn't have an appetite, anyway. Joey was too much on her mind. The safe birth of a healthy child was a blessing, but it wasn't compensation for her loss. Although by nature resistant to depression, she now had a darkness in her heart that would not relent before a thousand dawns or ten thousand. If a mere nurse had insisted that she eat, Agnes would not have been persuaded, but she couldn't hold out against the insistent importuning of one special seamstress..Everyone was silent. The day was morgue-still. The crows had fled the sky, but a single hawk gilded soundlessly, like justice with its prey in sight, high above the tower..Later, after they finished eating but were still sitting at the table over coffee, the conversation turned solemn, although for the moment, the subject wasn't the late Harrison White. How long the two women and the girl must hide out, when and where they would be able to resume lives as normal as might still be possible for them: These were the issues of the moment..As the bitch began her backswing, Junior grabbed the chair. He didn't try to tear it out of her hands, but used it to shove her as hard as he could..He stopped straining to see through the black room to the corner armchair. He closed his eyes and tried to lull himself to sleep by summoning into his mind's eye a lovely but calculatedly monotonous scene of gentle waves breaking on a moonlit shore..The detective shrugged. "The girl might've had her baby at a third rate hospital, one with poor control of patients' records and a less professional staff. Or the kid might have been placed for adoption through some baby brokerage in it strictly for the money. Then there would've been opportunities to learn something. But as soon as I discovered it was St. Mary's, I knew we were screwed."..The previous day, Jacob and Edom had driven back to Bright Beach, to prepare for Barty's arrival. Now they hurried down the back porch steps and across the lawn, as Maria followed the driveway past the house and parked near the detached garage at the rear of the deep property..Now here was a thing, worse than the thought of a quarter in the closed hand: Neddy's eyes seemed to follow Junior as he rooted among the trash bags..Yet had the obstacles been piled twice as high, the time had come to put into words what they felt for each other and to decide what they intended to do about it. Celestina knew that in depth and intensity, as well as in the promise of passion, Wally's love for her equaled hers for him; out of respect for her and perhaps because the sweet man doubted his desirability, he tried to conceal the true power of his feelings and actually thought he succeeded, though in fact he was radiant with love. His once-brotherly kisses on the cheek, his touches, his admiring looks were all still chaste but ever more tender with the passage of time; and when he held her hand-as in the gallery this evening-whether as a show of support or simply to keep her safely beside him in a crosswalk on a busy street, dear Wally was overcome by a wistfulness and a longing that Celestina vividly remembered from Junior high school, when thirteen-year-old boys, their gazes filled with purest adoration, would be struck numb and mute by the conflict between yearning and inexperience. On three occasions recently, he seemed on the brink of revealing his feelings, which he would expect to surprise if not shock her, but the moment had never been quite right..When Paul practiced the quarter trick, he usually did so on the sofa or in an armchair, and always in a room with carpeting, because when dropped on a hard surface, the coin rolled and required too much chasing..They hadn't been close to Naomi, who'd once said she felt like Romulus and Remus, raised by wolves, or like Tarzan if he'd fallen into the hands of nasty gorillas. To Junior, Naomi was Cinderella, sweet and good, and he was the love-struck prince who rescued her..By Sunday evening, a combination of factors-deep commitment to the philosophy of Zedd, explosive testosterone levels, boredom, self-pity, and a desire to be a risk-taking man of action once more-motivated Junior to splash a little Hai Karate behind each ear and go courting. Shortly after sunset, with a single red rose and a bottle of Merlot, he set off for Victoria Bressler's place..The gray pants of her jogging suit, speckled with rain that had blown in through the shattered windshield, were suddenly soaked. Her water had broken.."All right, the scary one." "I SOMETIMES EVEN EAT SPIDERS WITH MY CAVIAR." "Now who's being gross?" The morning that it happened, Edom woke early from a nightmare about the roses..An unfortunately bumpy ride for the deceased: along the hallway, through the foyer, across the entry threshold, down the porch steps, across a lawn dappled with pine shadows and yellow moonlight, to the graveled driveway. No complaints..faiths and inhibiting rules that confused humanity, when he was sufficiently enlightened to believe only in himself, he would be able to trust his instincts, for they would be free of society's toxic views, and he would be assured of success and happiness if always he followed these gut feelings..When she didn't at once accept his generosity, he said, "All my life, I've lived just to get through the day. First survival. Then achievement, acquisition. Houses, investments, antiques ... There's nothing wrong with any of that. But it didn't fill the emptiness. Maybe one day I'll return to medicine. But that's a hectic existence, and right now I want peace, calm, time to reflect. Whatever I do from here on . . . I want my life to have a degree of purpose it's never had before. Can you understand that?". Sometimes Angel seemed troubled by what she'd been told about her grandfather, and at those moments she appeared downcast, somber. But she was just three, after all, too young to grasp the permanence of death. She would probably not have been surprised if Harrison White had walked through the door in a little while, during The Man from U.N.C.L.E. or The Lucy Show..He stabbed Prosser, however, merely to relieve his frustration and to enliven the dull routine of a life made dreary by the tedious Bartholomew hunt and by loveless sex. In return for more excitement, he'd assumed greater risk, to mitigate risk, he must have insurance..Agnes dropped to one knee before the boy and held him gently by the shoulders. "Let me look."..Posing as a counselor with Catholic Family Services, he phoned each listed Bartholomew, with a question related to his or her recent adoption. Those who expressed bafflement, and who claimed not to have adopted a child, were generally stricken from his list..On the two-chair bed beside her mother, Angel issued small cries of distress in her sleep. Whatever presences flocked around her in the dream, they weren't baby chickens..For an instant, she appeared to be frowning. Then he realized this couldn't be a frown. It must be a smoldering look of desire..As she commented on each masterpiece,

Frieda grew steadily less coherent. She had drunk a few cocktails, the better part of a bottle of Cabernet Sauvignon, and two after-dinner brandies..Channeling his beautiful rage, Junior hefted the corpse onto the windowsill, and shoved it headfirst into the alley. The fog received it with what sounded almost like a swallowing noise..The Spruce Hills Police Department was far too small to have a full-blown Scientific Investigation Division. And if the tableau presented to them appeared convincing enough, they might accept the death as a freak accident and never turn to the state police for technical.He squirmed deep under the covers, clamped a plump pillow over his head to muffle the singing, and chanted, "Find the father, kill the son," until at last he fell exhausted into sleep..Lifted from his despair by this exhilarating wrath, Junior turned away from the mirror, looking for the bright side once more. Perhaps it was the bathroom window..She was also a cat lover, working with the Kitten Konservatory to save abandoned felines from death in the city pound. She was the charity's investment manager. Within ten months, Tammy grew twenty thousand in Konservatory funds into a quarter million by speculating in the stock of a South African firm that hit it big selling germ-warfare technology to North Korea, Pakistan, India, and the Republic of Tanzania, whose chief export was sisal.."I said it didn't work that way, and it doesn't. Yet ... I don't actually walk in those other worlds to avoid the rain, but I sort of walk in the idea of those worlds. . . .".Using a three-step folding stool, he was able to get near enough to one of the vent plates in the living room to determine whether it might be the source of the song. just then the singing stopped..Jacob had spent most of two days baking Barty's favorite pies, cakes, and cookies, and he'd prepared a meal as well. Maria's girls were at her sister's place this evening, so she stayed for dinner. Edom poured wine for everyone but Barty, root beer for the guest of honor, and while this couldn't be called a celebration, Agnes's spirits were lifted by a sense of normality, of hope, of family..Kitchen staff. All men. Some looked up in surprise; others were oblivious of him. He stalked the cramped work aisles, eyes watering from the fragrant steam and the heat, seeking Vanadium, an answer..Finally he began: Greetings on this momentous day. I'm writing to you about an exceptional woman, Agnes Lampion, whose life you have touched without knowing, and whose story may interest you..Alarmed, concerned that his patient's emotional reaction would lead to racking sobs, which in turn might stimulate abdominal spasms and renewed vomiting, Parkhurst called for a nurse and prescribed the immediate administration of diazepam..She worried that they would argue with her, and though she knew that she was committed to her decision, she was afraid to have that commitment tested just yet..Only Angel spoke, with nary a catch or quiver, fully confident in her Barty. "Anything he can teach me, I can learn, and anything I can see, he can know. Anything, Aunt Aggie."..As luck would have it," the nun said, "Dr. Lipscomb was in the when it happened. He'd just delivered another baby under.He knew what she made of it, all right, and he could see that the others on the porch knew as well, and likewise he could see that all of them wanted to hear him confirm the conclusion at which Agnes had arrived long before he'd come here with Wally this evening. Even in the dining room, before the proof in the rain, Tom had recognized the special bond between the blind boy and this buoyant little girl. In fact, he couldn't have arrived at any conclusion different from the one Agnes reached, because like her, he believed that the events of every day revealed mysterious design if you were willing to see it, that every fife had profound purpose..In a pocket of his smock was his letter to Reverend Harrison White. He hadn't sealed the envelope, because he intended to read to Perri, his wife, what he'd written, and include any corrections she suggested. In this, as in all things, Paul valued her opinion..Confused, Panglo held out his right hand, but Jacob said, "Sorry, no offense, but I don't shake with anyone."..Instinct, even reason, told him that some connection existed between this person, this Bartholomew, and Celestina. The name had terrified Cain in a bad dream, the very night of the day that he'd killed Naomi, and Vanadium therefore had incorporated it into his psychological-warfare strategy without knowing its significance to his suspect. As strongly as he sensed the connection, he couldn't find the link. He lacked some crucial bit of information..When he dared to look in the mirror above the sink, he expected to see a haggard face, sunken eyes, but the grim experience had left no visible mark. He quickly combed his hair. Indeed, he looked so fine that women would as usual caress him with their yearning gazes when he made his way back through the gallery..Wednesday, with a swiftness that confirmed its eagerness to make a deal, the state supplied records on the fire tower. For five years, a significant portion of the maintenance funds had been diverted by bureaucrats to other uses. And for three years, the responsible maintenance supervisor filed an annual report on this specific tower, requesting immediate funds for fundamental reconstruction; the third of these documents, submitted eleven months prior to Naomi's fall, was composed in crisis language and stamped urgent..Occasionally he woke in the night and heard himself murmuring the mantra aloud, which apparently he had been repeating ceaselessly in his sleep. "Find the father, kill the son." In April, Junior discovered three Bartholomews. Investigating these targets, prepared to commit homicide, he learned that none had a son named Bartholomew or had ever adopted a child..From these ominous spatters, several fibers bristled, having stuck to the pewter when the drizzle was still wet. They appeared to be human hairs..His eyes were strangely radiant, as she had never seen them before, as if the shining angel who would guide him elsewhere had already entered his body and was with him to begin the journey..Occasionally, when Junior returned home from a day of gallery hopping or an evening at a restaurant, Industrial Woman-the artist's title-scared away his mellow mood. More than once, he'd cried out in alarm before realizing this was just his prized Poriferan..Babies of unwed mothers-especially of dead unwed mothers, and especially of dead unwed mothers whose fathers were ministers unable to endure..public mortification-were routinely put up for adoption. Since Seraphim had given birth here, the baby would be-no doubt already had been-adopted by a San Francisco-area family.."That was five years ago. After more surgeries than I care to remember, I was left with these." He raised his goblin hands again. "There's pain in humid weather, less when it's dry. I can take care of myself, but I'll never be a card mechanic again ... or a magician."..Junior was not immune to traditional logic, but in this case he recognized the superior wisdom of Zedd's philosophy. His dread of

Bartholomew and his gut-level animosity toward a child he'd never met defied all reason and exceeded simple paranoia; therefore, it must be purest, infallible animal instinct. He held forth the single red rose. "For you. Not that it compares. No flower could." Vanadium's vehicle, obviously not an official police sedan, was a blue 1961 Studebaker Lark Regal. A dumpy and inelegant car, it looked as though it had been designed specifically to complement the stocky detective's physique. "Does my dad like Christmas?" Barty asked, sitting on the grave grass in front of the headstone. Carrying the candlestick, he raced to the kitchen at the end of the short hall. The door stood open, but he had to enter the room to see Victoria slumped in one of the two chairs at the small dinette. Years earlier, a stream had been diverted to fill the vast excavation. Stock fish were added, mostly trout and bass. Junior in the fog. Trying oh-so-hard to live in the future, where the winners live. But being relentlessly sucked back into the useless past by memory. The chest respirator, which Joshua had evidently applied, lay discarded on the bedclothes beside her. She seldom required this apparatus to assist her breathing, and then only at night. She was four years older than Phimie. They hadn't i;mn a great deal of each other during the past three years, since Celestina had come to San Francisco. Although distance and time, the press of her studies, and the busyness of daily life had not made her forget that she loved Phimie, she had forgotten the purity and the power of love. Rediscovering it now, she was shaken so badly that she had to pull a chair to the side of the bed and sit down. Another small pane of glass burst. A dismaying crack of wood. His back to her, the maniac raged at the window with the snarling ferocity of a caged beast. THE MORNING THAT it happened was bright and blue in March, two months after Barty took Angel for a dry walk in wet weather, seven weeks after Celestina married Wally, and five weeks after the happy newlyweds completed their purchase of the Galloway house next door to the Lampion place. Selma Galloway, retired from a professorship years earlier, had subsequently retired further, taking advantage of the equity in her long-owned home to buy a little condo on the beach in nearby Carlsbad. This was his door, however, not hers. She did not possess a ticket to ride the train that had come for him. He boarded, and the train was gone, and with it the light in his eyes. She lowered her mouth to his, kissing him one last time, and taste of his blood was not bitter, but sacred. Earlier in the week, Junior had looked up Thomas Vanadium in the telephone directory. He expected the number to be unlisted, but it was published. What he wanted more than a number was an address, and he found that as well. Unbuttoning her blouse, Celestina said, "Traditionally, puppies don't have a role in weddings." "No. The information I gave you came from the coroner's office, which issued the death certificate. But even if I got into St. Mary's records, there wouldn't be a hint of where Catholic Family Services placed this baby." As early as this evening, here at her son's bedside, Agnes began dimly to sense that certain of these amusing conversations with Barty might not be as fanciful as they seemed, that he was expressing in a childlike way some truth that she had assumed was fantasy. Still on her knees, she raised the weapon and realized that she was going to shoot the maniac in the back, that she had no other choice, because her inexperience didn't allow her to aim for a leg or an arm. The moral dilemma overwhelmed her, but so did an image of Phimie lying dead in bloody sheets on the surgery table. She pulled the trigger and rocked with the recoil. -and whenever the good Pharaoh was here in San Francisco, a few times each year, he always stopped by St. Anselmo's to entertain the boys-. Celestina smiled distractedly. Since arriving at the hotel an hour ago, she had been openly debating with herself whether to call her parents in Spruce Hills or to wait until later in the afternoon, when she might be able to report not just that she had a fianc?, and not only that she had a fianc? who'd been shot and nearly killed, but also that his condition had been upgraded from critical to serious. As she'd explained to Tom, in addition to worrying them with the news about Cain, she'd be stunning them with the announcement that she was going to marry a white man twice her age. "My folks don't have one ounce of prejudice between them, but they sure do have firm ideas about what's appropriate and what's not." This would ring the big bell at the top of the White Family Scale of the Inappropriate. Besides, they were preparing for the funeral of a parishioner, and from personal experience, Celestina knew their day would be full. Nevertheless, at ten minutes past eleven, after picking at her breakfast, she finally decided to call them. After a silent moment of surprise, Nork or Knacker, or Hisscus, said, "Your sentiment is understandable, Mr. Cain, but it's customary in these matters--". A half bath downstairs. Two bedrooms and a full bath on the upper floor. All deserted. IMplode To burst inward under pressure. Like the hull of a submarine at too great a depth. Out of respect for his mother, Barty struggled to hold fast to his eyeless second sight, living in the idea of a world where he still had vision, until she had been accorded the honors she deserved and had been laid to rest beside his father. Instead, she saw Phimie reborn. She saw, as well, a child endangered. Somewhere out there was a rapist capable of extreme cruelty and violence, a man who would--if Phimie was correct--react unpredictably if ever he learned of his
